About Galil Software Ltd.

Galil Software is a privately held software service company based in Galilee. Galil Software is backed by a group of investors who are veterans of the Israeli Hi-Tech industry and tenured investors from the Israeli VC community.

The services offered by Galil Software include Software Development and Integration, Maintenance of Legacy Systems, Testing & QA, System Re-Engineering, Application Migration, and Real Time and Embedded Systems. Potential customers for our services include: companies that require turnkey projects; companies that want to outsource to reduce their cost of development while maintaining high standards of quality; and companies looking for Arab language services.
